PHARMA & HEALTHCARE

HORIZON providing integrated logistics services for the pharmaceutical and healthcare industries. We work with some of the world's leading companies, and with other clients in related industries like medical equipment, animal drugs, personal care, and infant formula categories.

Innovative visibility and monitoring services support an additional array of services at every stage of the supply chain, specifically tailored to the needs of companies working in the pharma and healthcare sector.

RETAIL & FASHION

To meet these demands, most retailers now source globally, but this has added further complexity, and therefore greater risk, to their supply chains. Furthermore, the ever-expanding range of products, sizes, styles, weights, colors and other SKU variations, continually enlarges the inventory profile of most retailers.

Increasingly, clients need logistics providers who can reliably manage their flows, from source to shelf, and control all other supply chain issues, freeing them to concentrate on their core activities.

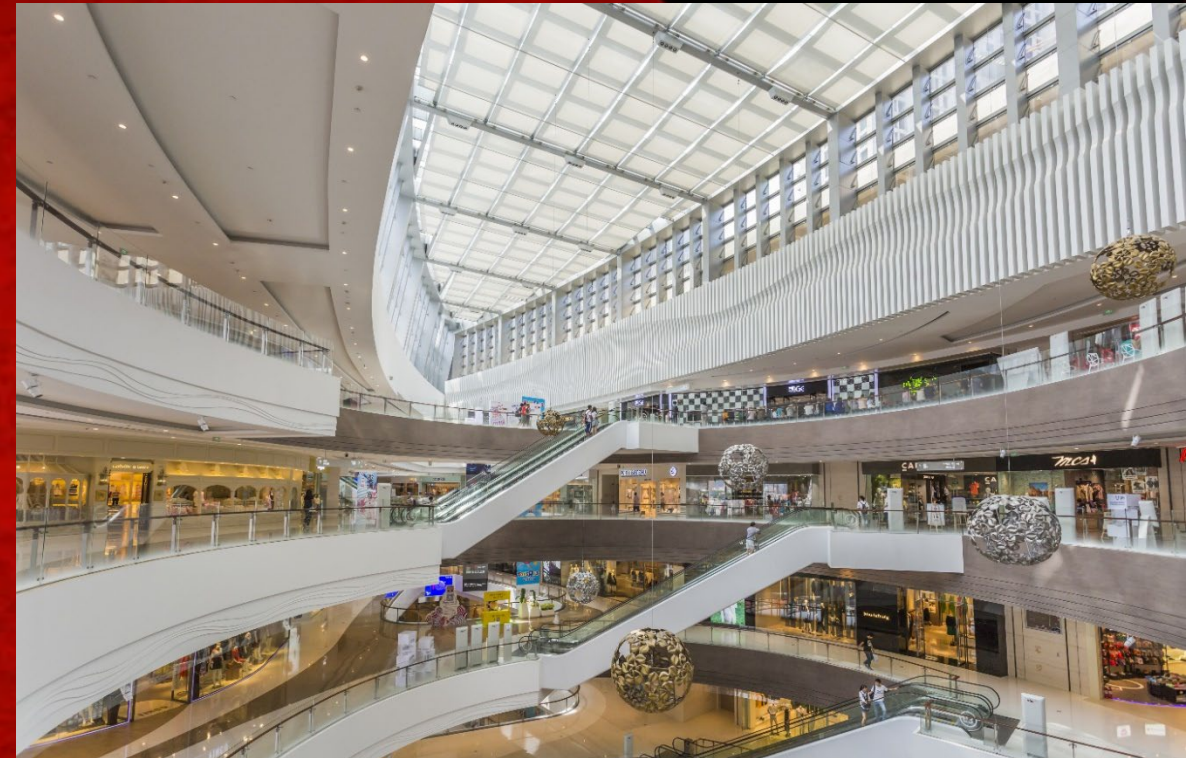

supply chain issues, freeing them to concentrate on their core activities. HORIZON supplies strategic, value-driven logistics solutions to the retail sector, using experts who understand the unique requirements and standards of the industry.

The company leverages this knowledge to serve some of the world's largest, most respected retailers, helping them to drive logistics efficiency and competitive advantage across the supply chain.

This is why more and more companies are selecting HORIZON as their logistics partner.

Our services include:

- Consolidation centers to reduce inventory
- Break-bulk and cross-dock facilities
- Automated conveyor technologies
- Pick-to-zero or standard picking in ambient, chilled or frozen environments
- Piece, inner box or box picking
