

August 2022

This HLC policy will be communicated to all stakeholders and reviewed every two years (or before if organisational developments arise)

# HORIZON Quality, Safety, Health and Environment Policy

At HORIZON, we provide a top quality, multimodal globally integrated logistics service across a wide range of industry sectors. We take our customers further by pushing our limits and strive to continually improve our internal processes. We are committed to reducing our impact on the environment and ensure that our employees remain

safe every day. We achieve our high level of Quality, Safety, Health and Environment (QSHE) performance by using an established management system compliant. to international standards.

### Communication

We believe that regular twoway communication with our stakeholders will develop our QSHE culture and demonstrate positive engagement.

## Collaboration

All of our stakeholders have the ability to confidently report all QSHE issues with the assurance that suitable investigations are completed preventing reoccurrence. Proud to deliver Excellence Every time Everywhere

Leadership

Our senior management team walk the talk with regards to QSHE delivering support to our stakeholders and demonstrating

positive examples to our colleagues.

## **Training**

We provide stakeholders suitable QSHE training including facility and business risks and actions to take in the event of an emergency.

# Continual Improvement

Monitoring and auditing provide results that strive to consistently exceed our customers expectations, ensure a safe workplace and develop positive environmental impacts.

## Human Factors

We ensure that the workplace is a pleasant and stress-free environment and ensure the prevention of injuries and ill health.

## Sustainability

As an Eco-pioneer, we are committed to continual environmental improvements including, prevention of pollution, reduction in waste generation and utilization of sustainable energy resources.
